What is a “microhood” here?

A microhood is a search zone around anchors / commonly used area labels on portals — not an administrative boundary. Names and boundaries may vary by portal and locals.

Scoring explained

- 5/5 = consistently strong across most pockets; 3/5 = mixed; 1/5 = rarely fits.
- Scores are directional: always validate street-by-street and building-by-building.

What can be wrong (limitations)

- Street feel and noise are highly street-dependent; validate in person (day + evening).
- Listings can hide humidity/insulation issues; rely on EPC + window quality + smell checks.
- Supply changes weekly; treat this shortlist as a weekly-refreshed starting point.

Microhood names are search labels; always cross-check using portal keywords + anchors.

Questions to ask (copy-paste)

Before viewing

- Please confirm in writing and share documents where possible (EPC, electrical, syndic pack).
- EPC rating and heating type? Any planned works in the building?
- Monthly charges (syndic/HOA) and what's included? Reserve fund amount + planned works list (if apartment).
- Parking options (private spot / permit) and bike storage?
- Noise exposure: which side faces the street; double glazing?
- Any urbanism/permit constraints (extensions/terraces) if relevant?

During viewing

- Check street noise at the windows (open/closed) and at peak hours if possible.
- Test water pressure, heating, and ventilation; check humidity/mold signs.
- Ask for electrical report + verify consumer unit / grounding.
- Confirm insulation and windows; note orientation and natural light.
- Look for cellar/storage, stroller access, elevator, bike room.

Offer stage (Belgium specifics)

- Request documents early: EPC, electrical, urbanism (if needed), syndic docs, minutes, budget.
- Clarify conditions in the offer (financing, technical inspection, document receipt).
- Plan timeline: offer → compromis → deed (notary) and move-in date alignment.

Belgium buying basics (compact)

Buying basics

- Typical flow: offer → compromis (sale agreement) → deed at notary (timing varies).
- Key docs: EPC, electrical inspection, urbanism/permit notes (if applicable).
- If apartment: syndic/HOA docs (charges, reserve fund, minutes, planned works).
- Registration fees & notary costs: factor them early (details depend on region and situation).
- Budget buffer: keep a margin for first-year fixes (windows, heating, humidity).

Brussels-specific pitfalls (quick list)

- If apartment: planned works can override "cheap charges"; always ask for minutes + budget + reserve fund.
- Noise on main arteries: validate street-by-street; avoid assuming the whole commune is quiet.
- Parking reality: permits vs private spots; check rules for the exact address.
- Old building trade-offs: EPC, insulation, humidity; ask about recent works.
- Syndic charges can vary widely; validate what's included and reserve fund health.
- Orientation/light: same street can be night/day difference; check sunlight in person.
- Schools/childcare: availability and waitlists; start inquiries early if relevant.
- Public transport nodes: great convenience but can mean higher noise/foot traffic.
- Renovations: confirm permits and restrictions for terraces/extensions if important to you.
