## Trust & method

### Sources & freshness

- Immoweb / Zimmo / Immoscoop (listing supply & price checks)
- Google Maps (routes, street context), Street View (noise/arteries)
- STIB/MIVB network maps & schedules (public transport coverage)
- Commune / Brussels regional sites (parking permits, admin steps)
- Last updated: 09 Feb 2026

### What is a “microhood” here?

A microhood is a search zone around anchors / commonly used area labels on portals — not an administrative boundary. Names and boundaries may vary by portal and locals.

### Scoring explained

- 5/5 = consistently strong across most pockets; 3/5 = mixed; 1/5 = rarely fits.
- Scores are directional: always validate street-by-street and building-by-building.

### What can be wrong (limitations)

- Street feel and noise are highly street-dependent; validate in person (day + evening).
- Listings can hide humidity/insulation issues; rely on EPC + window quality + smell checks.
- Supply changes weekly; treat this shortlist as a weekly-refreshed starting point.

Microhood names are search labels; always cross-check using portal keywords + anchors.

### Assumptions used for this run

## Questions to ask (copy-paste)

### Before viewing

- Please confirm in writing and share documents where possible (EPC, electrical, syndic pack).
- EPC rating and heating type? Any planned works in the building?
- Monthly charges (syndic/HOA) and what's included? Reserve fund amount + planned works list (if apartment).
- Parking options (private spot / permit) and bike storage?
- Noise exposure: which side faces the street; double glazing?
- Any urbanism/permit constraints (extensions/terraces) if relevant?

### During viewing

- Check street noise at the windows (open/closed) and at peak hours if possible.
- Test water pressure, heating, and ventilation; check humidity/mold signs.
- Ask for electrical report + verify consumer unit / grounding.
- Confirm insulation and windows; note orientation and natural light.
- Look for cellar/storage, stroller access, elevator, bike room.

### Offer stage (Belgium specifics)

- Request documents early: EPC, electrical, urbanism (if needed), syndic docs, minutes, budget.
- Clarify conditions in the offer (financing, technical inspection, document receipt).
- Plan timeline: offer → compromis → deed (notary) and move-in date alignment.

### Second viewing checklist (5–10 min)

- Confirm charges breakdown (syndic/HOA) + reserve fund + planned works; get minutes and budget in writing.
- Verify heating system, insulation, and any moisture issues (cellar/bathroom corners, ventilation).
- Check noise at different times (street, neighbors) and window quality; ask about recent complaints.
- Validate parking reality (permit rules, availability, private spots) and storage (bikes/strollers).
- Review legal/urbanism points (permits, co-ownership rules) if you plan renovations or terraces.
- Ask for a clear inventory of included fixtures/appliances and estimated move-in timeline.
- If possible: bring a contractor/inspector for a quick sanity-check of hidden costs.

## Belgium buying basics (compact)

### Buying basics

- Typical flow: offer → compromis (sale agreement) → deed at notary (timing varies).
- Key docs: EPC, electrical inspection, urbanism/permit notes (if applicable).
- If apartment: syndic/HOA docs (charges, reserve fund, minutes, planned works).
- Registration fees & notary costs: factor them early (details depend on region and situation).
- Budget buffer: keep a margin for first-year fixes (windows, heating, humidity).

### Brussels-specific pitfalls (quick list)

- If apartment: planned works can override "cheap charges"; always ask for minutes + budget + reserve fund.
- Noise on main arteries: validate street-by-street; avoid assuming the whole commune is quiet.
- Parking reality: permits vs private spots; check rules for the exact address.
- Old building trade-offs: EPC, insulation, humidity; ask about recent works.
- Syndic charges can vary widely; validate what's included and reserve fund health.
- Orientation/light: same street can be night/day difference; check sunlight in person.
- Schools/childcare: availability and waitlists; start inquiries early if relevant.
- Public transport nodes: great convenience but can mean higher noise/foot traffic.
- Renovations: confirm permits and restrictions for terraces/extensions if important to you.

## Settling-in essentials (short)

### Commune registration — typical minimum

Where to start: IRISbox (Brussels region) and your commune appointment page.

- Passport/ID + residence documents (if applicable)

#### First 72 hours

- Book temporary accommodation if needed and confirm the first viewing schedule.
- Prepare document scans (IDs, visas/residence, payslips/employer letter).
- Pick 1–2 communes for administrative steps (registration timing depends on your move date).

#### First 2 months

- Finalize utilities (energy/water) and update contracts after moving in.
- If buying: schedule notary steps, financing, and property checks (EPC, urbanism, syndic docs).
- Set up local services: bank, insurance, parking permit (if needed), and subscriptions.

#### First 2 weeks

- Register at the commune (if applicable) and start the resident file (appointment-based).
- Choose a GP and check insurance coverage / mutuelle requirements.
- If family: shortlist schools/childcare and request availability/registration steps.

- **Mobile:** Proximus / Orange / Telenet — compare coverage where you live.
- **Internet:** Proximus / Telenet — check fiber/cable availability by address.
- **Energy:** Engie / Luminus — compare fixed vs variable, contract terms.

### Schools & childcare

- School/childcare types: communal (FR/NL) vs international/private (budget-dependent).
